SUMMARY

- Collaborated with team members to produce a website for travel to and from the school
- Logical, resourceful, hard working, able to adapt to changing priorities and maintain a positive attitude
- Developed object orientated projects using java that exceeded instructors' expectations

EDUCATION

Nova Scotia Community College, Center of Geographic Sciences
IT Programming Diploma
School of IT & Creative Industries
(Anticipated Graduation – 2019)

This program is a well-rounded introduction to the IT industry. It teaches aspects of industry professionalism, logical and technical skills, and design and documentation. The work maintains a steady pace to encourage good work ethic. I have learned entry level Windows and Linux operation, Python, Java, C, PL/SQL HTML5, CSS3 and Bash. I have also developed skills in teamwork, communication, and problem solving.
